## Safety security.

SSD 12.8 is our proprietary credential that all employees must earn prior to handling material meant for destruction.

SSD 12.8 covers processing to health screenings and everything in-between.

The *Safe & Secure Destruction 12.8 (SSD-12.8)* is a proprietary credential developed exclusively by *Off-Spec Munitions Destruction (OMD)*. This designation is designed to assure potential clients that only highly qualified and certified personnel handle the destruction of their ammunition. The SSD-12.8 credential guarantees adherence to the strictest safety and security protocols, providing clients with confidence in the secure and compliant destruction of off-spec munitions and other energetics.

Do it right  
and sleep at  
night

1

### Meet Standards Destruction Process

Ensure clients that all munitions destruction processes follow the highest industry standards.

2

### Minimize Risk Safety

Minimize risks to personnel, property, and the environment during the handling, storage, and destruction of munitions.

3

### Trust Integrity

Establish trust and reliability between OMD and clients through rigorous training and security measures.

4

### Commitment Compliance

Demonstrate OMD's commitment to exceeding regulatory compliance for ammunition destruction.

### We Are a Turnkey Destruction Partner

At OMD, we pride ourselves on being a turnkey destruction partner for all your off-spec munitions needs.

From initial consultation to final disposal, we handle every step of the process with precision, security, and efficiency. Our comprehensive services ensure that you can focus on your core operations while we take care of the rest.

## General overview of our company.

We are a leading provider of off-spec munitions destruction and ammunition recycling services. With a commitment to safety, compliance, and environmental responsibility, we specialize in handling the destruction and recycling of surplus, expired, or defective munitions.

Our expert team ensures that all processes are conducted with precision, meeting the highest industry standards.

#### Our Services:

- + Ammunition Destruction
- + Material Recycling
- + Compliance Management
- + Custom Solutions

## What we recycle

Recovery and recycling of non-hazardous components, including brass casings, lead, steel, and copper.

Conversion of scrap materials into reusable forms to minimize environmental impact.

#### Metals:

Brass, steel, copper, and aluminum recovered from casings and munitions components.

#### Lead:

Safely processed and recycled for reuse in compliant industries.

#### Energetic Materials:

Properly disposed of or neutralized to ensure safety and environmental protection.

#### Packaging Materials:

Recycling of cardboard, plastic, and other ammunition-related packaging materials.

## Why choose us?

- Unwavering commitment to safety and security.
- Environmentally friendly practices that support sustainability.
- Industry-leading expertise in munitions disposal and recycling.
- Flexible solutions tailored to your unique requirements.
